

CDSVAN

Digital Delegates' Unit, built-in version EDV9

WPF05.4040.E.081007 BRÄHLER ICS is committed to continually improving its products and so reserves the right to make technical modifications without notice.

Description

The built-in version of the digital delegates' unit EDV9 serves within the CDSVAN conference system as microphone unit and for the transmission of up to 32 languages. Furthermore votings and evaluations are possible with 5 illuminated keys.

Password protected Chipcards make personal identification for e.g. name administration and lists of speakers possible.

With the development of the EDV9 the simple operation and the ergonomic arrangement of the keys were the center of attention.

If desired, the "silver" anodized aluminum control panel can be supplied in other colours. So it is relatively simply possible to give to the equipment your personal note, or adapt it to your Interior. Further inscription variants are possible in all languages up to touch typing.

Technical Data

Complies with international standard IEC60914
